***FM 24-41**

Field Manual
No 24-41

Headquarters,
Department of the Army
Washington, DC

Tactical Tactics, Techniques, and Procedures for the Enhanced Position Location Reporting System (EPLRS)

Contents

		Page
	PREFACE	iii
Chapter 1	**OVERVIEW OF EPLRS**	1-1
	Communications Architecture	1-1
	Network Architecture	1-2
	Functional Description	1-3
	Applications	1-4
Chapter 2	**EPLRS TECHNICAL DESCRIPTION AND CHARACTERISTICS**	2-1
	Performance	2-1
	Components	2-1
	Communications Support	2-26
	Functional Areas	2-32
	Operational Features	2-33
	Functioanl Design	2-34
	Electronic Protect (EP)Capabilities	2-36
Chapter 3	**NETWORK PLANNING**	3-1
	Predeployment Planning	3-1
	Signal Support Plan	3-2
	Network Operational Planning	3-6
	Estimating Communication Network Capacities	3-28
	COMSEC Planning Considerations	3-28

Distribution Restriction: Approved for public release; distribution is unlimited.

*This manual supersedes all other versions of FM 24-41.

Chapter 4 **NETWORK MANAGEMENT** 4-1
Deployment Phase 4-1
EPLRS Operation During Deployment 4-2
EPLRS Signal Support Planning During Deployment 4-4
Responsibilities 4-19

Chapter 5 **EPLRS Operational Capacities** 5-1
Absolute Maximum Perfomance and Capacities 5-1
Practical Maximum Performance and Capacities 5-1
Communications Capacitites 5-1
Control Netwofk Performance and Capacities 5-2
Communications Network Performance and Capacities 5-5
Netwrok Control Station Library Capacities 5-9
Outbound Message Generation Performance and Capacities 5-9
Position Tracking Accuracy Capacities 5-11

Chapter 6 **EPLRS TROUBLESHOOTING** 6-1
NCS 6-1
RS 6-20
Network 6-27

Chapter 7 **EPLRS USER SYSTEMS** 7-1
EPLRS VHSIC 7-1
EPLRS SIP 7-4
SAT System 7-5
SADL System 7-13

Appendix A **NEEDLINES** A-1

Appendix B **EPLRS MESSAGE SETS AND MESSAGE FORMATS** B-1

Appendix C **SAMPLE ANNEX K FOR DIVISION EQUIPPED WITH EPLRS** C-1

Appendix D **EPLRS SYMBOLOGY** D-1

Appendix E **RISK ASSESSMENT/MANAGEMENT** E-1
